The patient care technician (PCT) performs routine tasks under the supervision of a doctor or nurse in monitoring the patient's condition and providing basic patient care. Our PCT training curriculum will demonstrate knowledge of medical terminology, anatomy and physiology, clinical skills, vital signs, electrocardiography (EKG), phlebotomy, infection control, nursing aide in long term care, and medical records. This PCT program is a great way to start a career in the healthcare industry.

This program will meet In-person for mandatory skill training and testing (venepuncture, skinpuncture, ect.) Lectures will be conducted Online in Real Time via Blackboard Collaborate

#### Schedule of Training Hours:

165 hours On-site (1600 Valley) – Monday, Tuesday(Virtual), & Wednesday, 8:00am - 1:00pm **October 4, 2021 to December 15, 2021**

**Potential employment opportunities with Healthcare Systems within the William Paterson University Region.**
