Mathematics and Computer Science (MaCS) Scholars Program

Opportunity available for math, computer science, or computer information technology majors!

Funded by a grant from the National Science Foundation (NSF), the William Paterson University MaCS Scholars program is designed to support academically talented mathematics, computer science, or computer information technology scholars who meet designated income and other criteria. The program provides tuition scholarships, culturally responsive mentoring, networking, and internship opportunities.

Program Benefits:

Scholarship—Tuition Support | Consistent Mentoring | Cohort experience
Research Activities | Internship Opportunities
