Professionals Preparing Students for Their Careers

**For free
career advice,
apply for a
mentor**

“When I first joined the Pesce Family Mentoring Institute, I was hoping for instant answers to the dilemmas about the future. Instead of mapping one straight path, this program has instead served a much broader purpose. My mentor, Robert Hartnett, motivates, guides me, and pushes me forward. My mentor is giving me valuable tools to make the most of all career opportunities and to become the best version myself. I’m glad to have a mentor because it’s fantastic to have someone to share my ideas with and get constructive criticism.”

Stevenica Callie Dantes
Finance & Economics Major
